Student Directory

1992–93

Registrations received through Oct. 5, 1992

Copyright 1992 by the
University of Rochester

The individual listings in this student directory are intended for the exclusive use of the officers, faculty, staff, and students of the University of Rochester. Their reproduction or distribution for advertising or other commercial use is expressly prohibited.

This student directoty was prepared by the Office of the University Registrar from computer records and includes information on file as of October 5, 1992. It is intended to be an inclusive list of students registered at the University of Rochester.

Additions and corrections should be reported as promptly as possible in writing, to the Office of the University Registrar, 129 Administration Building.

UNIVERSITY OPERATOR SERVICES

The University information operators are available between the hours of 7 AM - 7 PM, Monday through Friday ONLY. At all other times, calls will be answered by an automated attendant that will route caller to several key areas in the University.

II INTRODUCTION

The University of Rochester's telephone system provides universal calling to any other telephone in the University system and allows direct outward calling to local or long-distance telephones with the use of an authorization code or a credit card (Refer to: LONG-DISTANCE SERVICES in these procedures). It also allows outside callers to directly reach individual University telephones without going through a switchboard operator. ROLMphones are special digital telephone sets which will not operate on telephone systems outside the University.

III PRECAUTIONS

1. Answering machines and non ROLMphones **DO NOT** work on the University system.
2. **DO NOT** move your ROLMphone to another telephone jack, this disables some software features and you will not receive your calls.
3. **DO NOT** unplug the power module connected to the back of the ROLMphone.
4. If the ROLM system goes down for any reason, you will have to re-program the PhoneMail buttons. (Refer to: PHONEMAIL (Voice Mailbox) - in these procedures.)
5. You are responsible for charges to your authorization code; keep your code confidential and treat it like you would a credit card.
6. Change your default PhoneMail password to a new one **IMMEDIATELY** (up to twenty four digits are allowed; six to eight digits are recommended) and periodically afterwards to ensure your PhoneMail Box stays secure.
7. To avoid charges for unanswered local and long-distance calls **DO NOT** allow more than five rings without an answer.

IV PHYSICAL FEATURES

a) **FACEPLATE** - identifies features that you may access by pressing pre-programmed buttons on your ROLMphone.

b) **LINE BUTTON** - corresponds to your extension number. You can use the LINE BUTTON to answer and place calls. The light next to the LINE BUTTON indicates the line status:

FLASH RATE:	LINE STATUS:
Off	Available
Lit Steadily	In Use
Blinking	Call on Hold
Flashing	Ringing
Flickering	Forwarded

c) **DATA LINE BUTTON** - used to connect to (or disconnect) the data port (Refer to: YOUR ROLMphone DATA PORT - in these procedures).

d) **FLASH BUTTON** - used only when you have an existing call in progress and need to use the keypad to dial a second party or an access code. (Refer to: CONSULTATION CALL, CALLBACK CAMP-ON, and PARK under FEATURES - in these procedures).

e) **CALL WAITING LIGHT** - blinks when a call is waiting on your line.

f) **FEATURE BUTTONS** - used to access the particular features associated with them. (Refer to: FEATURES - in these procedures).

g) **VOICE VOLUME CONTROL BUTTONS** - the "ARROW BUTTONS" will adjust the voice volume of the party with whom you are speaking.

h) **RING VOLUME CONTROL** - a slide control located either on the side or under your ROLMphone, depending on the model ROLMphone you are using.

V LOCAL CALLING INFORMATION

a) **Calling On-Campus Telephones** - Lift handset to get dial tone, press the 5-digit number listed in a University telephone directory for the party you are calling. The 5-digit extension number consists of the last five digits of the standard 7-digit telephone number.

b) **Local Calling** - A student authorization code is needed to place off campus local calls. For instructions on placing a local call, see instructions under section VII "Using Your University Authorization Code. For instructions on how to program your Authorization Code into a station speed number, see paragraph (i) of section IX "Features".

c) **Calling into the University** - When placing a call to a University extension from outside the University use the full 7-digit University telephone number, 27X-XXXX (the 7-XXXX extensions cannot be reached from outside the University).

VI LONG-DISTANCE SERVICES

You have two choices for long-distance services. The choices are:

a) **University Telecommunications Long-Distance Services** - The University Telecommunications Division offers long-distance calling capability at competitive rates. Students living in the River Campus or Eastman School of Music residence halls can use the University's long-distance service. Each student who requests long-distance service will be issued an 8-digit authorization code that can be used to access long-distance lines from any University ROLMphone. The toll charges for the long-distance call will be billed to the student, via the term bill from the Bursar's Office. Any student may make private arrangements for another long-distance carrier. However, the service the University provides may prove the easiest to use and is competitive with the other carrier's rates.

b) **Long-distance service other than University Telecommunications**
(For example: ACC, RCI, MCI, Sprint, AT&T) (Carrier selected will provide access codes)
Whichever long-distance company you choose, you will be responsible for your own long-distance calls and bills, which must be billed to your home telephone or a long-distance credit card. They **CANNOT** be charged to a University of Rochester telephone number.

c) **Placing Long-distance calls with other carriers**
- lift handset to get dial tone
- press 9 for external dial tone, and follow the directions provided by the long-distance service ('10XXX + 0' & 950 access codes are allowed, '10XXX + 1' are NOT allowed) XXX digits are listed in the RTC White Pages telephone directory under the Long Distance Access Code information.

VII USING YOUR UNIVERSITY AUTHORIZATION CODE

Sign up for student telephone services is handled through mail-in registration. Request forms for Student Authorization Codes may be obtained from the Residential Life Office. When you have completed your request form, mail the original to the Telecommunications Division address noted on the form. Your activated authorization code will be mailed to your campus post office box (CPU) within three days of receipt of the signed form. Your authorization code can be used from University telephones ONLY and CANNOT be used for operator assisted calls. Calls made with your authorization code will be charged to the authorization code not to the telephone extension from which the call is placed. You are responsible for all charges to your authorization code; keep your code confidential and treat it as you would a credit card. If your card has been lost or stolen, call 4-HELP (x44357) to cancel card.

Placing a long-distance call with an Authorization Code

- lift handset to get dial tone
- press code 89, wait for a double-beep tone prompting you to enter your 8-digit authorization code
- listen for the triple-beep tone indicating that the system has accepted your authorization code, followed by an internal dial tone; if you receive a hi-lo tone, you may have incorrectly entered your authorization code or the code may be invalid; try placing your call again and if the problem persists, call 4-HELP (x44357) for assistance.
- press 9; wait for external dial tone; press the local 7-digit telephone number, or 1 + the 7 or 10 digit long distance number, or 011 + Country Code + City Code + local telephone number for an international call.

VIII OTHER TYPES OF CALLS

a) **Operator Assisted Calls - ONLY** Collect Calls, Credit Card Calls, Calling Card & Third Party verified calls can be made.
- lift handset to get dial tone, press 9, then 0 + called telephone number

b) **TOLL Calls** - may be placed to long-distance points by students. These calls incur a surcharge.

c) **800 Telephone Numbers** - are available to students:
- lift handset to get dial tone, press 9, then 1 and the 800 telephone number

800 Telephone Information Number
- lift handset to get dial tone and press 9, then press 1-800-555-1212

d) **900 Telephone Numbers** - are **NOT** available on the University's ROLM system.

e) **International (AT&T) Information:**
- International Directory Information can be obtained by dialing 9 + 00. There is a charge for this call. Rates vary so check with the AT&T operator. This charge can only be billed to a calling card.
- For rate information only, lift handset to get dial tone and press 9, then press 1-800-874-4000.

f) **Rochester Telephone Information Service** is **NOT** available on the University's ROLM system.

IX FEATURES

Some of these features may be programmed into the feature buttons of your ROLMphone:

a) **HOLD** - allows you to temporarily hang up a line without disconnecting the caller.

To place a call on HOLD:
- first announce to the caller that you are going to put them on hold
- press HOLD BUTTON
- hang up (the LINE BUTTON will blink)

To reconnect to a call placed on HOLD:
- lift handset

b) **CONNECT** - when your CALL WTG LIGHT is lit (because you are on your line), you may connect to that call by pressing the CONNECT BUTTON. To toggle back and forth between calls, press the CONNECT BUTTON.

c) **TRANSFER** - allows you to transfer a call to another extension.

To TRANSFER a call:
- press TRANSFER BUTTON
- press the extension number, announce the caller
- hang up

d) **CONSULTATION CALL** - allows you to consult with a second party during a call.

To CONSULT with a second party:
- ask your first party to hold
- press the FLASH BUTTON
- press the appropriate telephone number of the second party you wish to consult (extension or outside telephone number)
- talk with the second party
- press the CONNECT BUTTON to reconnect with the original party

NOTE: You may go back and forth between the two parties, with privacy, by pressing the CONNECT BUTTON.

e) **CALLBACK CAMP-ON** - automatically calls you back (with a long ring) when the busy extension you are trying to reach becomes free (the indicator light next to your CAMP FEATURE BUTTON and the LINE BUTTON will flash). When you answer, you will hear the extension you called begin to ring. If you CAMP-ON to another line and leave the room, the system will cancel the CAMP-ON after ringing your telephone two times. If your CAMP-ON has been cancelled, the indicator light next to the CAMP BUTTON will no longer be lit. You can only CAMP-ON to one extension at a time.

To CAMP-ON to a busy extension:
- listen for busy signal
- press the CAMP BUTTON or FLASH # 1
- listen for internal dial tone
- hang up
- when your telephone rings, your CAMP and LINE BUTTON indicator lights will flash simultaneously, lift the handset to answer the call

To cancel CALLBACK CAMP-ON:
- lift handset to get dial tone
- press the CAMP BUTTON or # # 1
- hang up

f) **CALL FORWARDING** - allows you to send, or forward, your calls to another extension. You **CANNOT** forward your calls off-campus. When your telephone is forwarded, your LINE BUTTON indicator light will flicker.

To FORWARD calls to another extension:
- lift handset to get dial tone
- press # 9
- press the 5-digit extension you wish to forward your calls to
- hang up

To cancel FORWARDING from your extension:
- lift handset to get dial tone
- press # # 9
- hang up

NOTE: If you forget to cancel your FORWARDING you will not receive your calls.

g) **DO NOT DISTURB** - allows you to temporarily block incoming calls to your extension. The caller will hear a high-pitched busy signal.

To activate DO NOT DISTURB:
- lift handset to get dial tone
- press # 5

To cancel DO NOT DISTURB:
- lift handset to get dial tone
- press # # 5
- hang up

NOTE:
1. You can continue to make calls from your extension when in DO NOT DISTURB mode.
2. There will be **no visual indication** that your extension is in the DO NOT DISTURB mode.
3. When you wish to resume receiving calls, cancel DO NOT DISTURB using the procedure above.
4. Instead of using the DO NOT DISTURB feature, you may wish to forward your telephone to PhoneMail and have messages taken for you (Refer to: PHONEMAIL (Voice Mailbox) - in these procedures).

h) **PARK** - allows you to transfer a call to an idle or busy extension and hold it there for 20 minutes (you will not hear a ring).

EXAMPLE 1: If an urgent call is received for someone that is in a meeting, you can park the call on the meeting room telephone without having it ring and then notify the individual.

EXAMPLE 2: You are at work in a busy area and receive a private call, you can park the call on a telephone in an empty office and take the call there.

To PARK a call on an extension:
- press FLASH * 6
- press idle or busy extension number
- listen for internal dial tone
- hang up

When a call is parked on your extension:

- if parked to an idle extension: press the LINE BUTTON to connect to the call
- if parked to a busy extension: you will hear a single-beep tone, your CALL WTG LIGHT will be flashing, press CONNECT BUTTON to receive the call

i) **STATION SPEED CALLING** - allows you to place frequently called internal extensions or off-campus numbers by pressing a one-digit number. You may make your own directory containing up to nine numbers by assigning each number a station code (1-9). Each station code is limited to 16 digits. EXAMPLE: An authorization code may be programmed in as one station code number.

To set up or change a SPEED CALL code:

- lift handset to get dial tone
- press # # 3
- press the STATION SPEED code you wish to assign to the telephone number
- press the internal extension number or 9 for external dial tone and the 7-digit telephone number to be assigned to that code
- hang up

To make a STATION SPEED CALL:

- lift handset to get dial tone
- press # 3
- press the STATION SPEED code assigned to the number you wish to call

NOTE: STATION SPEED access code "0" is reserved for PhoneMail
(Refer to: PHONEMAIL (Voice Mailbox) - in these procedures).

j) **YOUR RING TONE** - may be changed to one of eight different ring tones.
To change the RING TONE:

- lift handset to get dial tone
- press * 572 to hear your current setting
- press single digit (1-8) to hear various tone pitches
- select the ring tone that you prefer (1-8)
- hanging up your ROLMphone will save your RING TONE selection

X PHONEMAIL (Voice Mailbox)

The PhoneMail voice messaging system is like a sophisticated answering machine. It allows you to record, send, and receive voice messages from any touch tone telephone any hour of the day. Your messages are stored in your personal voice mailbox. Anyone calling your extension after you have forwarded it to PhoneMail will be greeted by the PhoneMail system. You can call the PhoneMail system to listen to your messages from any touch tone telephone, as well as to send voice messages to other PhoneMail subscribers. The PhoneMail system provides oral prompts to help you leave and retrieve your messages. All you have to do is call the system--it's that easy!

All River Campus and Eastman School of Music student telephones are connected to PhoneMail, the University's voice messaging system. You can set your ROLMphone to forward incoming calls to PhoneMail at any time. The feature buttons on your telephone labeled MSG WTG (message waiting), PHML ANSWER (to forward your calls to PhoneMail), and CANCEL PHML (to cancel the forwarding), need to be programmed by you for their intended function.

a) **PHONEMAIL SPECIFICATIONS**

Need Help while you are in the PhoneMail system?

- press zero (0), the system will prompt you with verbal commands

PhoneMail Processor Access Number

The PhoneMail access number is the number you press to access the PhoneMail processor where your PhoneMail Box resides. Your access number is assigned at the time your PhoneMail Box is configured. The PhoneMail access numbers for the five processors are x43661, x43662, x43663, x43664 and x40665. These numbers should be used when calling into your PhoneMail Box to listen to messages, change personal options, and to record a message.

PhoneMail Processor Forwarding Access Number

The forwarding access number is the processor extension number used to forward your calls to PhoneMail. The forwarding access numbers for the five processors are x43361, x43362, x43363, x43364 and x40365. These numbers correspond to the PhoneMail access numbers and are also assigned when your PhoneMail Box is configured.

TELEPHONE PROCEDURES

Length of each PhoneMail message • 45 seconds

Standard number of Messages per PhoneMail Box • 5 messages
(additional message units are available for a charge, call 4-HELP (x44357)

Abbreviated Prompts - PhoneMail provides oral prompts to help you leave and retrieve your messages. They are in a shortened version for your convenience.

Station Forwarding - allows you to forward calls from your (telephone) station.

Additional Assistance
If you have any further questions, call your Resident Advisor. Report problems to: 4-HELP (x44357).

b) **PROGRAMMING YOUR PHONEMAIL FEATURE BUTTONS**

To program MSG WTG
- lift handset to get dial tone
- press # # 30
- press assigned *PhoneMail access number* (x43661, x43662, x43663, x43664, x40665)
- hang up

To program PHML ANSWER
- lift handset to get dial tone
- press * 566
- press PHML ANSWER BUTTON
- press # 9
- press assigned *forwarding access number* (x43361, x43362, x43363, x43364 and x40365)
- hang up

To program CANCEL PHML
- lift handset to get dial tone
- press * 566
- press CANCEL PHML BUTTON
- press # # 9
- hang up

c) **USING YOUR PHONEMAIL FEATURE BUTTONS**

To forward incoming calls to PhoneMail
- press PHML ANSWER BUTTON
- hang up (the indicator light next to the LINE BUTTON will flicker when activated)

To cancel forwarding
- press CANCEL PHML BUTTON
- hang up (the indicator light will then go out)

d) **CALLING PHONEMAIL**

Calling PhoneMail from your own extension
- lift handset to get dial tone
- press the MSG WTG BUTTON or press your *PhoneMail access number* (listen for prompts)
- press ENTER (or #) to indicate that you are calling from your own extension
- press your password
- press ENTER (or #)

Calling PhoneMail from another ROLMphone within the University
- lift handset to get dial tone
- press your *PhoneMail access number* (listen for prompts)
- press your 5-digit extension
- press ENTER (or #)
- press your password
- press ENTER (or #)

Calling PhoneMail from a touch tone telephone outside the University
- lift handset to get dial tone
- press 27 then your *PhoneMail access number* (listen for prompts)
- press your 5-digit extension
- press ENTER (or #)
- press your password
- press ENTER (or #)

TELEPHONE PROCEDURES

Once you have dialed into the PhoneMail system you will be able to listen to your messages, record your personal greeting, change your password, or change your answering mode.

At the start of each message queue, you will first hear an announcement telling you how many messages you have. The PhoneMail system tells you the originating extension (for internal calls only), the time and date the message was left, and then the message will be played. Messages are played on a first-in, first-out basis.

To LISTEN to your messages

- follow the procedures above for calling PhoneMail
- press 3 to listen to your messages

After listening to each message, you have the choice of saving or deleting the message you have just listened to. When you save a message, you can retrieve it at any time. A saved message becomes an old message. As you accumulate saved (old) messages, the number of new messages allowed in your PhoneMail Box decreases. Your PhoneMail Box can only hold five messages. To avoid losing messages, check your PhoneMail Box frequently. After saving or deleting messages, press ENTER (or #) to listen to the next message.

To SAVE a message

- listen to your message; press 4 to save your message

To DELETE a message

- listen to your message; press 6 to delete your message

e) CHANGING YOUR PERSONAL GREETING

The PhoneMail system gives you the option of recording your own personal greeting or having the PhoneMail system greeting answer your telephone.

To change your PERSONAL GREETING

- lift handset to get dial tone
- press the MSG WTG BUTTON or press your *PhoneMail access number* (listen for prompts)
- press 8 for answering options
- press 1 for personal greeting
- press 1 to change your personal greeting
- press 1 to record your new personal greeting
- after the tone, record your new message
- press STOP (or *) and ENTER (or #) to let the system know that you are done
- listen to your new personal greeting (you can change your personal greeting at any time)

f) CHANGING YOUR PASSWORD

When you first receive your PhoneMail Box you are assigned a default password of 111. It is **strongly recommended** that:

1. You change your password to one that only you know in order to protect your PhoneMail Box.
2. Your password be at least six-digits (6) long and no longer than twenty-four digits (24).
3. You **DO NOT** use a "5" as the first digit of your PhoneMail password because this could put your extension into DO NOT DISTURB mode.

To change your PASSWORD

- lift handset to get dial tone
- press the MSG WTG BUTTON or press your *PhoneMail access number* (listen for prompts)
- press 9 for mailbox options
- press 3 to change your password
- press your new password (up to 24-digits)
- press ENTER (or #) to verify your new password

NOTE:

1. Default password is 111.
2. If you are locked out of your PhoneMail Box, try the default password before calling 4-HELP (x44357).
3. If your password has to be reset for any reason bring proper identification to University Telecommunications Division, Operations Center

g) CHANGING YOUR ANSWERING MODE

You have the choice of whether you want PhoneMail to answer your telephone or not. If you choose to have PhoneMail answer your calls, it can either accept messages or not accept messages.

To change your ANSWERING MODE:

- lift handset to get dial tone
- press the MSG WTG BUTTON or press your *PhoneMail access number* (listen for prompts)
- press 8 for answering options
- press 2 to change your answering mode
- press 4 if you want the PhoneMail system to answer and accept messages OR
- press 6 if you want the PhoneMail to answer but not accept messages OR
- press ENTER (or #) if you want the PhoneMail system to answer your calls, play your personal greeting, and then forward your calls to the University Operator; your personal greeting should inform the caller of this procedure OR
- press 2 if PhoneMail should not answer your calls

XI BILLING INFORMATION

The University Telecommunications Division will send you a monthly statement summarizing the local call charges and itemizing the long-distance calls placed using your authorization code. Local and long-distance call charges are billed directly to the assigned user of that authorization code, not to the telephone extension from which the call is placed. You are responsible for all calls made using your authorization code; for this reason, be sure to keep your card with you at all times and **DO NOT** give out your authorization code number. The Telecommunications, Operations Center 4-HELP Desk (x44357), should be notified immediately by telephone, and in writing, if misuse or unauthorized use is suspected. A fee of $10.00 will be charged to have a new code issued as a result of your authorization code being lost or stolen.

The collection process for student local and long-distance calls is maintained by the University Bursar's Office. The monthly charge noted on your telephone statement will be transferred to your term bill, and be subject to the payment terms and conditions of the Bursar's Office. Non-payment may result in termination of service without prior notice. In such case, payment in full and a $10 reconnection fee will be required to reinstate service. Questions on telephone charges that appear on your term bill should be directed to the Telecommunications 4-HELP Desk (x44357). Questions on student telephone charges or requests for additional copies of your monthly telephone statement must be submitted in writing to the University Telecommunications Division, Operations Center, with supporting documentation enclosed.

REMEMBER: Fraudulent use of the University's telephone system is a misdemeanor under New York State Law and is punishable by up to one year imprisonment and/or $1,000 fine. Replacement costs of damaged or stolen telephone equipment will be charged to the student responsible.

XII YOUR ROLMphone DATA PORT

The ROLMphone in your residence hall room contains a DATA COMMUNICATION MODULE (DCM). The DCM has an RS-232 interface that is capable of transmitting asynchronous data at speeds of 110-19200 baud and synchronous data at 1200-64000 baud. Once a data call is set up, the DCM will transmit and receive any character code and size up to 8 bits per character, although 8-bit ASCII characters are used during Interactive Call Setup (when your terminal is communicating with your DCM but a data call has not yet been initiated). The DCM is powered through a thick gray modular cord that connects to a black transformer plugged into a power outlet. The power cord and transformer should be left plugged in, even if you are using your data port.

a) **Standard Configuration for Your DCM:**

Speeds allowed	**110, 300, 1200, 2400, 4800, 9600, 19200**
Initial speed	**9600**
Autobaud	**YES** (meaning your terminal/computer's speed is recognized from a carriage return character sent from the terminal to the DCM at the beginning of Interactive Call Setup)
Parity	**NONE** (only applies during Interactive Call Setup)
Echo	**ON** (meaning characters are echoed by the DCM during Interactive Call Setup)
Full/Half Duplex	**FULL** (meaning simultaneous two-way transmission; characters are echoed by the destination computer during the data call)
Originate permission	**YES**
Answer permission	**YES**
Answer mode	**MANUAL** (see Answering a Data Call in this section)
Dial-out permission	**YES** (see Using the Outbound Modem Pool in this section)
Queuing permission	**YES**

b) **Data Port Names**

The name by which any individual data port is called is its *data line number*. A data line number is analogous to an extension for telephone calls. The data line number on a ROLMphone is the same as the extension number of that ROLMphone's primary telephone line.

Computers with multiple data ports have the ports collected in *data groups*. Each data group has a name. The data groups available to you can be listed during Interactive Call Setup. The Computing Center can provide information on the services available on the University's computer system.

c) **Placing a Data Call**

With your terminal on, properly configured and cabled to the RS-232 port on the back of your ROLMphone,

- press <RETURN> on the terminal (this puts you in Interactive Call Setup)
- system responds: CALL, DISPLAY OR MODIFY?
- enter one of the following commands, followed by <RETURN>:

CALL aaaaaaa	to call a data group (examples: CMSFS, DB1, UHURA)
CALL nnnnn	to call a data line (example: 41234)
DISPLAY CHAR	to display data line's characteristics
MODIFY CHAR	to modify the data line's characteristics
	RATE 110-19200,
	PARITY EVEN, ODD, MARK, SPACE, NONE
	ECHO ON or OFF,
	ANSWER MANUAL or AUTO
DISPLAY PERM	to display permissions
DISPLAY GROUPS	to display callable data groups

After issuing CALL commands

- system responds: CALLING nnnnn
CALL COMPLETE
- press <RETURN>
- initiate session with called host

For DISPLAY commands

- system responds with the requested information displayed followed by: CALL, DISPLAY OR MODIFY?

For MODIFY commands

- system responds: ENTER PARAMETER
- enter appropriate value followed by <RETURN> (Example: Baud Rate 9600)

d) **Answering a Data Call**

- arrange with the caller to have the same Parity and Rate settings for both the calling and answering DCMs. The ROLMphone allows you to be talking to the caller while you are receiving a data call.
- wait for the two short beeps
- answer the call:
  - if your DCM is set to Answer Mode MANUAL, press the DATA BUTTON once
  - if your DCM is set to Answer Mode AUTO, have your terminal assert the Data Terminal Ready signal; most terminals assert this signal when they are powered up and in "online" mode.

e) **Using the Modem Pools**

OUTBOUND - once you have completed a data call to the modem pool, you must use an authorization code to place the call to the desired computer.

- start Interactive Call Setup at 300, 1200, or 2400 baud
- enter: CALL MODEM
- system responds: CALLING nnnnn
CALL COMPLETE
- enter: AT
- system responds: OK
- enter: AT@SMBrate (where rate is 300, 1200 or 2400 accordingly)
- system responds: OK
- enter: ATDT89,12345678,95551111 (local) OR
ATDT89,12345678,912225551111 (long-distance)
89 - roving authorization code
12345678 - authorization code
9 - external dial tone
1 - long-distance access number
222 - area code
5551111 - 7-digit telephone number
- system responds: CONNECT
- initiate session with called host

INBOUND -from outside the University, call any one of the following numbers from a modem running at 300, 1200, or 2400 baud: 442-6210, 442-7750, 442-5360

When the modem pool answers the call and is communicating with your modem:

- press <RETURN> a few times until the system responds with: CALL, DISPLAY OR MODIFY? (signalling the start of Interactive Call Setup), proceed as described above.

f) **Data Troubleshooting**

If you experience problems using your ROLMphone data port:

- check that the ROLMphone has dial tone
- check the PWR (Power) light on the back of the ROLMphone; if not lit, check power cord and transformer connections
- check the DTR (Data Terminal Ready) light on the back of the ROLMphone; if not lit, check the RS-232 cable connections and verify that the terminal is in "online" mode
- check that the TxD (Transmit Data) light on the back of the ROLMphone flickers when you press <RETURN> on your terminal
- if the problem persists, call 4-HELP (x44357), and report your findings

XIII BLUE LIGHT EMERGENCY TELEPHONES

Special Blue Light Emergency Telephones are located throughout the River Campus and Medical Center areas. They are housed in weather-proof blue boxes with blue lights on top of the pole for easy identification.

All Blue Light Emergency telephones connect you immediately with the Security Dispatcher; there is no need to dial - just open the box and lift the receiver. Your location is automatically known. Even if you cannot speak, merely picking up the receiver will alert the dispatcher to your location and a patrol officer will be dispatched immediately to investigate.

BLUE LIGHT EMERGENCY TELEPHONE LOCATIONS

Current

- Alumni Rd & Wilson Blvd
- Annex Lot (old Lot 7 area near Central Utilities)
- Bridge Lot (Intercampus Dr near Elmwood Ave.)
- Crittenden Blvd Circle (old Main Circle)
- Crittenden Lot (2 telephones - old Lot 1 entrance, and near the ball fields)
- Field (near Maisonettes/De Kiewiet Tower)
- Fraternity Rd & Wilson Blvd
- Intercampus Lot (3 telephones - old area M)
- Lattimore Lot (old Lot 2 entrance)
- Main Visitors Lot (3 telephones - old Lot 5 area)
- McLean St & Wilson Blvd
- McLean St Lot (across from Alumni Affairs)
- Medical School Lot (2 telephones - old Lot 8 area)
- Meliora Dock
- Middle Drive Lot (old Lot 6 area)
- North Entrance Lot (old Lot 4 area)
- Palestra
- Park Lot (2 telephones - Middle, South)
- Park Lot Expansion
- River Lot (old area Z)
- S & A Lot (near Receiving Loading Docks)
- South Visitor Lot (old Lot 3 area)
- Spurrier Gym Rear Pathway
- Susan B. Anthony Halls Dr. at Library Rd.
- Tiernan Hall
- Towers Lot (old Area O)
- Towers Road (rear of Susan B. Anthony)
- Towne House Lot (at the N.W. corner Professional Building)
- Trustee Rd & Wilson Blvd
- University Park Circle
- Vivarium Dock
- Whipple Circle
- Wilson North Lot (2 telephones - the New Hill Court Lot)

Proposed

- Faculty Rd (Alumni Gym near Crosby Hill)
- Hutchison Rd & Wilson Blvd

Please be aware of the locations of these telephones now before an emergency should warrant their use. **DO NOT** hesitate to use the Blue Light Telephones for:

•fire alert •medical emergency •reporting crimes or suspicious persons •if you feel you are being followed

WE DESIGN EVERY VOLVO TO LOOK LIKE THIS.

You're looking at a perfect Volvo. A Volvo that performed exactly as our safety engineers designed it to.

Its front and rear ends, for example, collapsed on impact. As a result, much of the crash energy was absorbed instead of being passed on to the passengers.

The car's middle section, however, didn't collapse. That's because the entire passenger compartment is surrounded by Volvo's unique "safety cage." Made of six box section steel pillars, this protective housing is strong enough to support the weight of six Volvos.

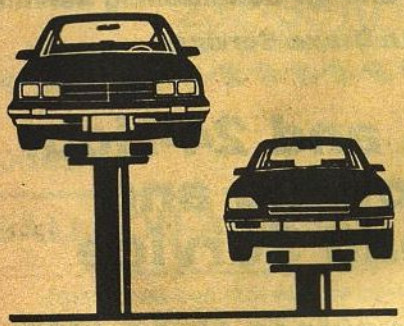

© 1990 VOLVO NORTH AMERICA CORPORATION

But the passengers of this car were also protected in ways you can't see. Because inside are such standard features as a driver's side Supplemental Restraint System, a collapsing steering column and, of course, 3-point seat belts, front and rear.

Every Volvo is designed to help protect its passengers in all these ways. And, as a result, will look remarkably similar to this one after being in the same type of accident.

If you're concerned about safety, you can't find a more beautiful car. VOLVO A car you can believe in.

We are the University of Rochester's primary printing service. Located on-campus for your convenience, we offer the following services to the University Community:

- Macintosh Desk Top Publishing
- Layout and Typesetting
- Design Services
- Full Color Process Printing
- Delivery Service
- 24-hour Emergency Service (call in advance)

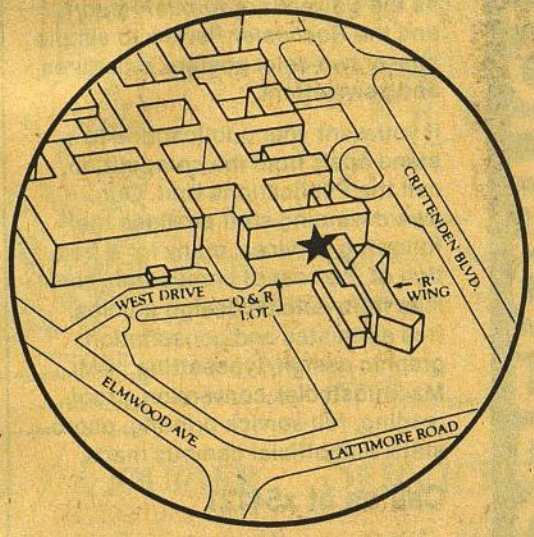

We also provide sales service. If you need help with design, typesetting, paper selection, or any production steps, call us to set up an appointment. Our sales representative will meet with you at your convenience and at the location of your choosing.

Ordering for your everyday departmental printing needs is easy. Simply fill out a standard 312 requisition and bring or send it to the Printing Office, Box 306.

(We'll print your personal jobs, too.)

WE STOCK THE FOLLOWING ITEMS IN THE PRINTING OFFICE:

U of R Lapel Labels
U of R Watermark Bond
Med Center Mailing Labels
White and Blue Copy Paper
Plain Blue Intramural Envelopes
Standard Intramural Letterhead
Standard Med Center Letterhead and Envelopes

Down the hall from Personnel Main Office

PUBLICATIONS!

The Publications Unit of the Office of Public Relations is uniquely qualified to produce publications of all varieties. From projects as complex as the University's *Annual Report* and the *Rochester Review* to simple one- or two-color posters, brochures, and newsletters.

If you want your publications to stand apart from the competition, call the Publications Unit. Our award-winning staff provides the following services, many for a fraction of the cost of comparable services from outside design studios: free estimates and consultation, graphic design, typesetting, IBM/Macintosh disk conversion, proofreading, full-service printing, photostats, and official campus maps.

Five Great Reasons To Start Your Semester With A Preowned IBM PS/2 60

#1 Your papers will be on time - you won't waste time walking to Clark and then waiting in long lines.
#2 Safety - you won't ever have to walk home alone across campus at 2:00 a.m. after you finish a paper.
#3 With an IBM PS/2 60 study time is never wasted, so you get free time to play Tetris.
#4 The IBM PS/2 60 is as easy as a Macintosh to use, *but much more versatile* - you have access to hundreds of software programs through your library.
#5 At $888, you don't need a student loan to afford IBM.

IBM PS/2 Model 60 (041)

- 1 MB RAM
- 3.5" 1.44 MB Floppy Drive
- 44 MB Hard Drive
- Built-in VGA Adapter
- 8512 Color VGA Monitor
- MS/DOS 5.0 Installed
- Exsel 90-Day Warranty
- Exsel Refurbished

EXSEL INC.

PERSONAL SAFETY

UNIVERSITY OF ROCHESTER

SECURITY & TRAFFIC DIVISION

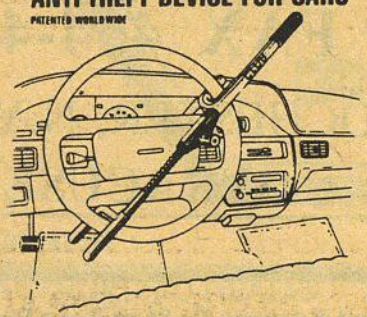

CRIME PREVENTION OFFICE

The efficiency of the Security and Traffic Division depends in great part on the help and cooperation of our entire community. We are responsible for helping to keep the University safe for faculty, staff, students, patients and visitors. Security Officers are available 24 hours a day, seven days a week. Anything of a suspicious nature should be reported immediately.

Want to join THE CLUB®?

ANTI-THEFT DEVICE FOR CARS

PATENTED WORLDWIDE

If you are a car owner, you should consider buying a "membership." Auto theft is on the rise in Rochester and Monroe County and on campus. "The CLUB" is one of the best anti-theft devices available. Made of brightly painted tempered steel (to warn off would-be thieves), "The CLUB" attaches to the steering wheel of any vehicle, making it impossible to drive.

"The CLUB" is being sold for $39.95, tax included, and is available at River Campus and Medical Center parking offices, and The Corner Store. For more information, call the University's Crime Prevention Office at x5-2220.

SERVICES OFFERED:

Educational presentations dealing with personal safety awareness, how to report a crime, and property protection and identification;

Distribution of "Alert Bulletins", and crime prevention materials;

Victim and Witness support services;

Security surveys of office space or building construction and renovations;

Landscaping and exterior lighting evaluations.

PERSONAL SAFETY AWARENESS TIPS:

Be alert to your surroundings;

When walking at night, use a route that is frequently traveled and well lighted. Walk with others, but if you must walk alone remember our escort services can be reached at x5-3333;

Report any hazards or non-working lights.

Remember...While at the University

Dial x13 in any EMERGENCY

Dial x5-3333 for any Non-Emergency, or

Pick up a "Blue Light Emergency Phone"
